PRESS RELEASE**

Work is Underway in Alamogordo to Develop a Graduate Profile

Tuesday, April 18, 2023 - Alamogordo, NM – Alamogordo Public School District

Alamogordo Public Schools needs your input as we develop a graduate profile for Alamogordo High School students. What is a "Graduate Profile"? It is a one-page guiding vision document for our K-12 education system, developed with local input, that identifies the skills, knowledge, attributes, and competencies necessary to successfully transition to life after high school.

Schools across the state of New Mexico, including the Alamogordo Public School District, are aiming to improve the quality of educational programs by creating a community-driven Graduate Profile document. Alamogordo Public Schools is committed to producing well-rounded student graduates with the skills and competencies to enter adulthood after graduation. It is the overall mission that every graduate will leave high school with the skills and competencies that are identified in the Graduate Profile.

A recent survey by the Alamogordo Public School district seeks input from all community members. The graduate profile will be built using the data received from the Graduate Profile Community Survey and will feature the competencies and attributes identified.

APS encourages all community members to participate and give their meaningful feedback to ensure all voices are heard.
